### New fire engineer appointed

Dear residents,

I'd like to thank you for your patience while we have been investigating the external wall system at Kilburn Quarter. We've been working on making progress and I'd like to provide you with the latest position.

#### Fire engineer delays

We have been working with a fire engineering firm to investigate your building and ultimately provide you with an EWS1 form. While we were able to provide an EWS1 form for one of the blocks at Kilburn Quarter, we have been experiencing delays in progressing with a final decision on the remaining blocks at Kilburn Quarter.

You may know that there is incredibly high demand for fire engineers in the UK at the moment. There are only around 300 people who are qualified to carry out this kind of work and thousands of buildings which demand investigating. As such, we were struggling to make progress at Kilburn Quarter as the fire engineering firm had multiple projects with other building owners.

#### New fire engineer appointed

While we understand the demands on fire engineers at the moment, we know that there are many of you who are waiting for an EWS1 form and the reassurance it can provide. Therefore, we have decided to appoint another fire engineering firm to complete the work at Kilburn Quarter and hopefully resolve this situation for you sooner. We have appointed CHPK Fire, who are a renowned fire engineering firm with a wealth of experience, and we are pleased to have been able to get them on board.

They are now working on progressing the reports at Kilburn Quarter. We are hopeful that we will be able to provide you with an update on the next steps soon.

If you have any further questions, get in touch with us on [customerservice@networkhomes.org.uk](mailto:customerservice@networkhomes.org.uk).

Best wishes  
Graeme Manley  
Head of Building Safety
