Scaffolding to go up in the car park area on Wednesday 22 February, doors to car park closed

Following our most recent letter in December, we are continuing to work with the design team on the remediation solution for the external walls.

As part of this we will be completing some pilot works to two windows to determine the final remediation solution that will be acceptable to our fire engineer and building control. In order to do this, we will be erecting a small section of scaffolding to the building facing the car park area. The scaffolding will be going up on **Wednesday 22 February**. It's likely to be up for two/three weeks.

Door to parking area closed

The scaffolding will be outside the door leading from/to the parking area. We will need to close this door that leads to the parking area. Please use either the front door or rear doors instead and walk round the building to reach the parking area.

If you have any questions, then please contact us on customerservice@networkhomes.org.uk.

Kind regards

Raj Gandecha
Head of Resident Management (Building Safety)
