Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

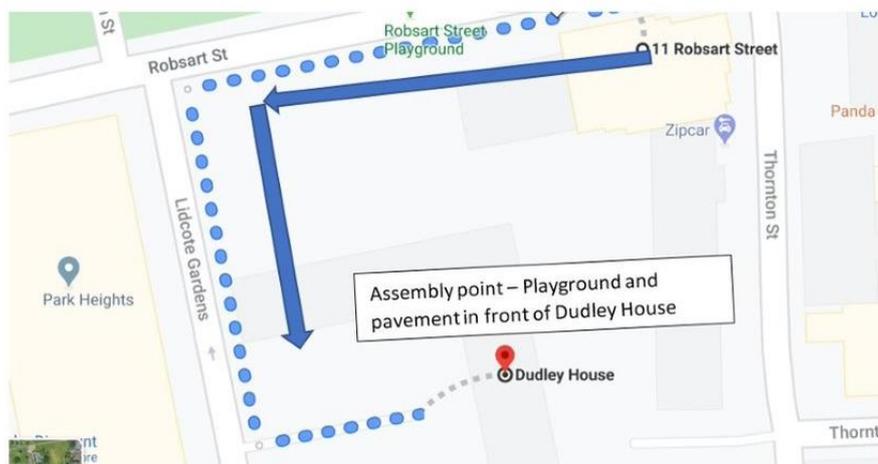

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Please use the following link to access online information relating to your building:
<https://www.networkhomes.org.uk/your-home/building-fire-safety-and-cladding/>

If you have any questions please contact: BuildingSafetyTeam@networkhomes.org.uk or
Leasehold.Enquiries@Sw9.org.uk

Yours Sincerely

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

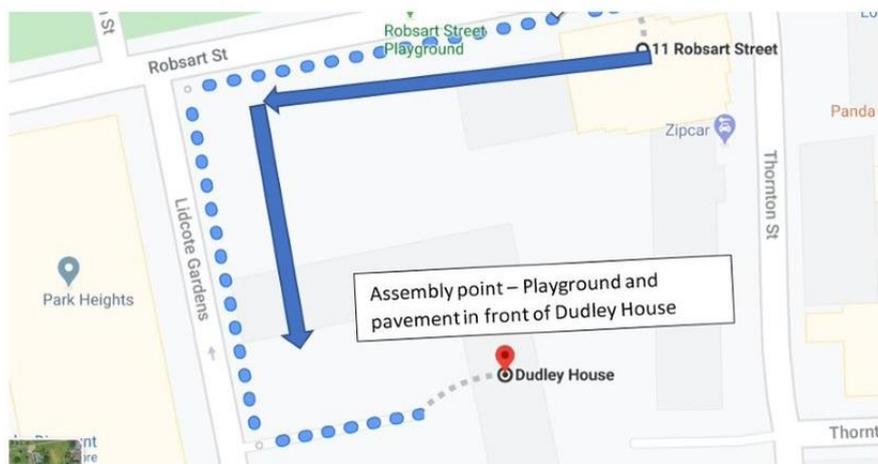

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

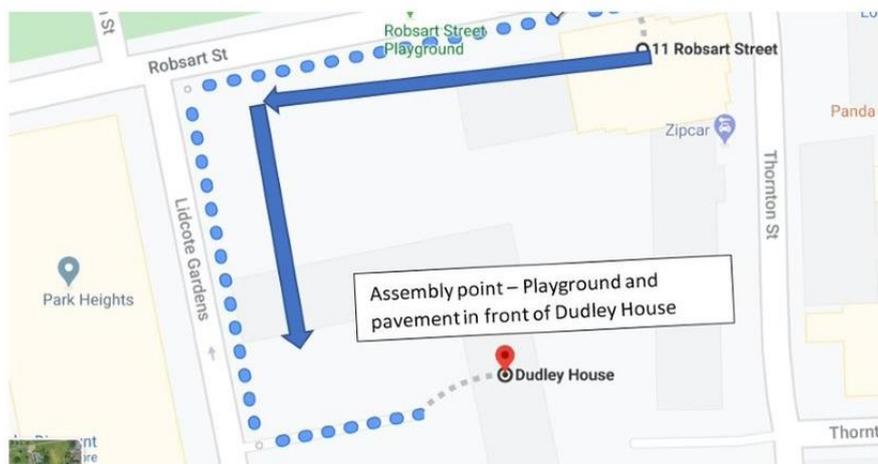

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Please use the following link to access online information relating to your building:
<https://www.networkhomes.org.uk/your-home/building-fire-safety-and-cladding/>

If you have any questions please contact: BuildingSafetyTeam@networkhomes.org.uk or

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

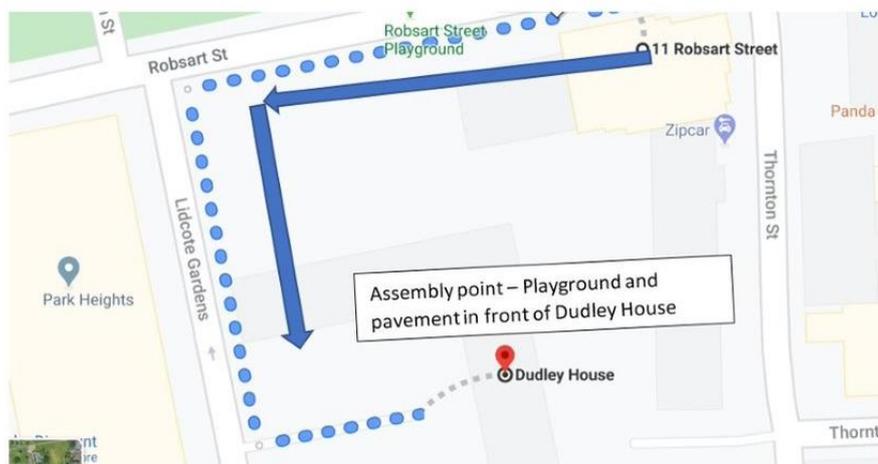

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

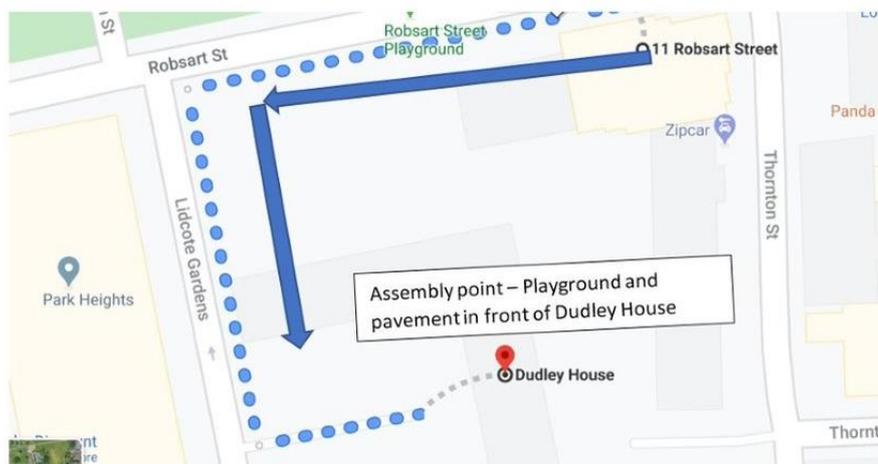

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

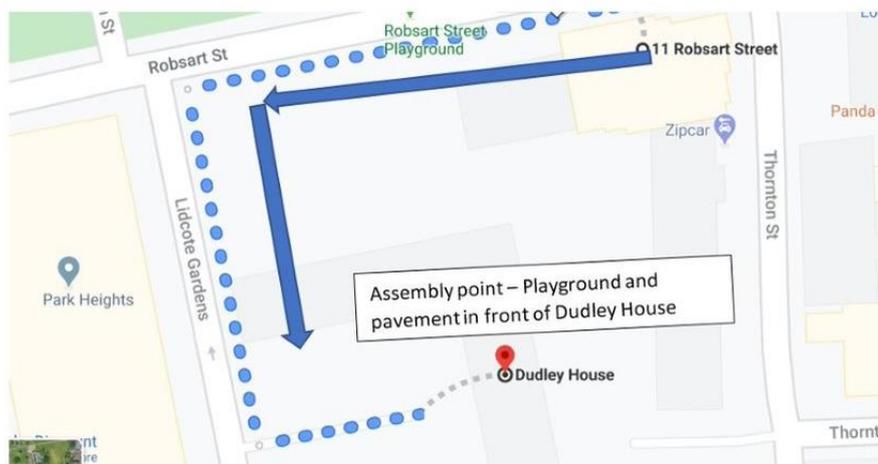

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

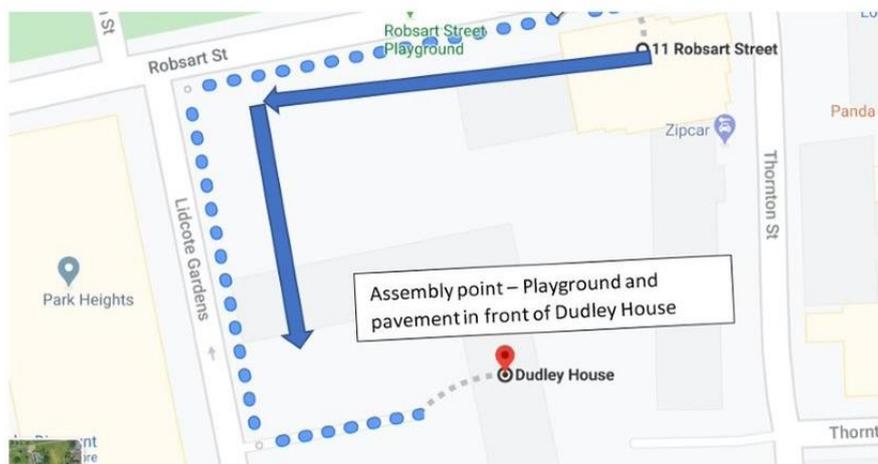

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

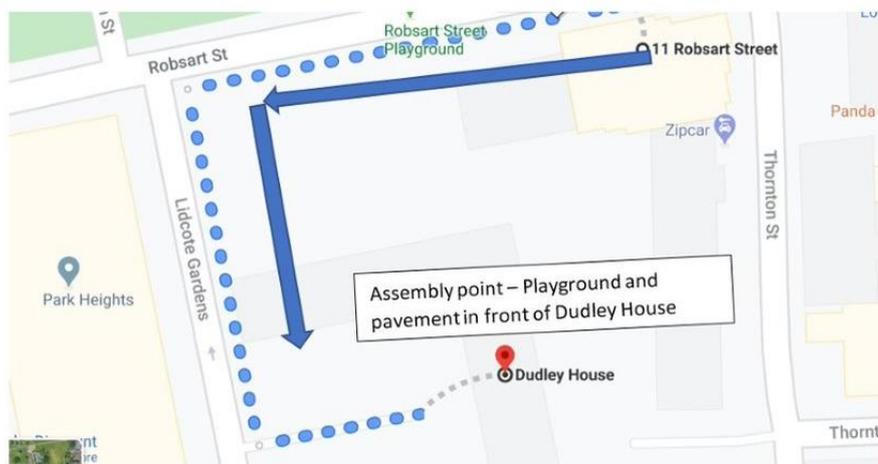

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Please use the following link to access online information relating to your building:

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

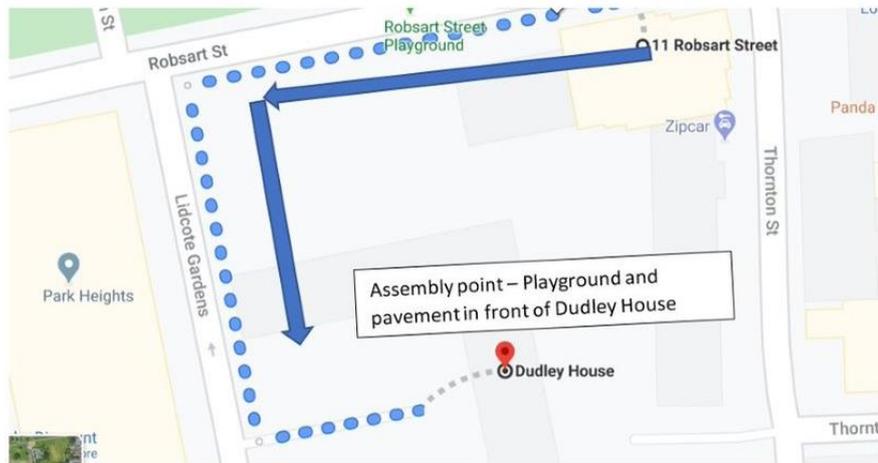

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

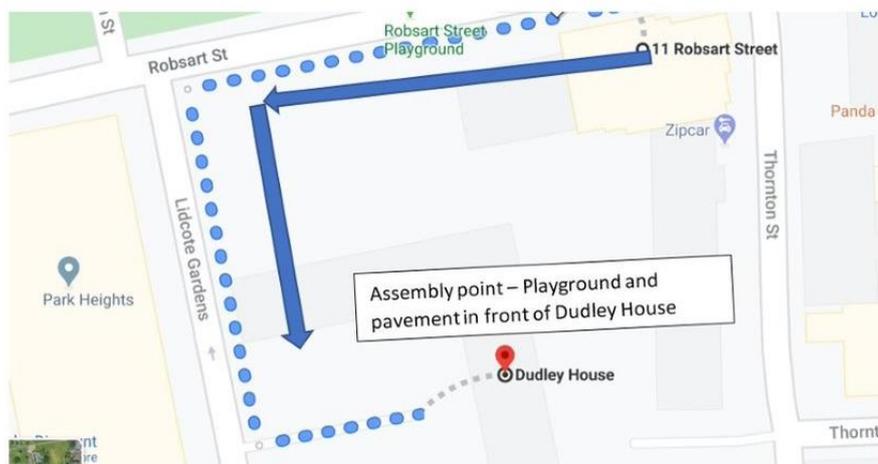

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Please use the following link to access online information relating to your building:

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

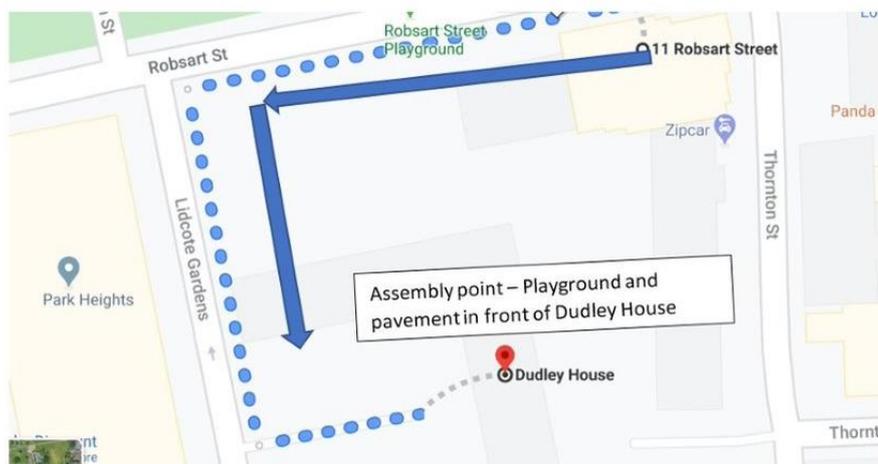

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

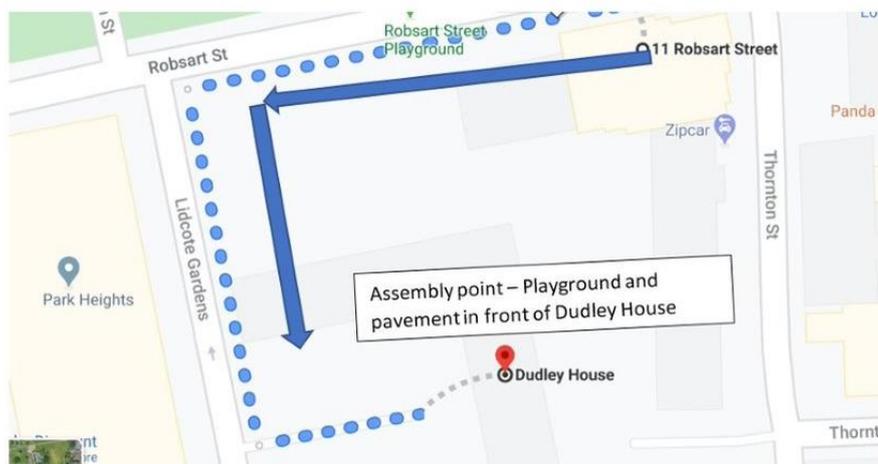

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Please use the following link to access online information relating to your building:

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

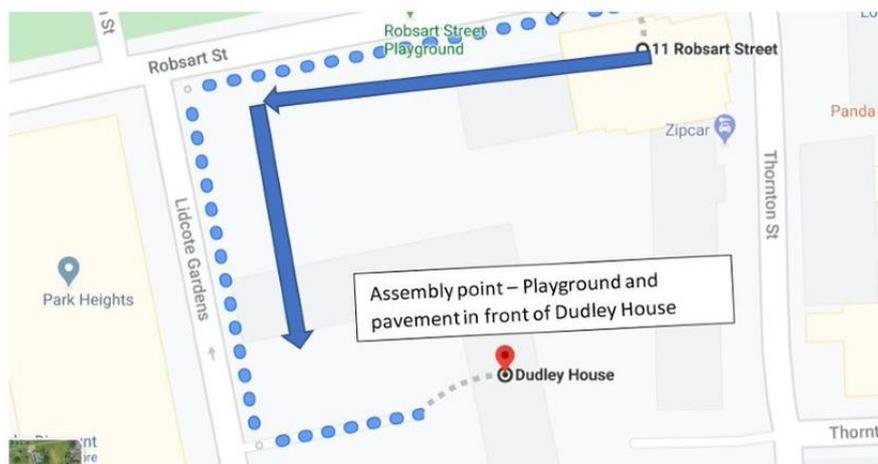

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.

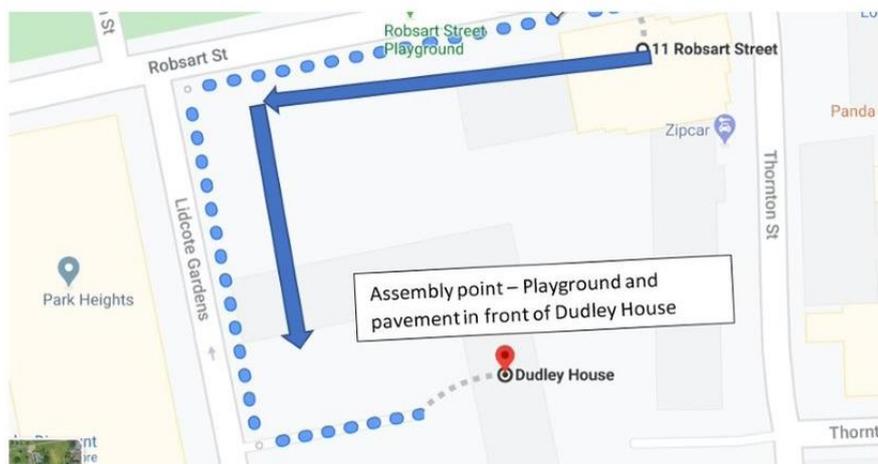

Please send your details to Leasehold.Enquiries@Sw9.org.uk. This will ensure we have your correct details.

You can also check for the latest update on the website by going to:

'My block documents' section and searching for your block/estate name. Alternatively, a link is provided at the end of this letter.

If there is a fire in your flat or the fire wardens raise an alarm you should:

- Evacuate immediately closing all doors behind you as you leave your flat.
- Leave the building using the nearest staircase. This will be shown on the fire signage within your block. **Do not use the lift.**
- Call 999.
- If the fire is in your flat, you should alert the fire wardens so they can raise an alarm. If you are responding to an alarm raised by the fire wardens, you should follow any instructions they give you.
- Tell the fire wardens and Fire Brigade if any members of your household require assistance to evacuate.
- Gather at the assembly point in front of Dudley House (map below). Wait at the assembly point until you are told by the lead fire warden to return to your home.

Ability to self-evacuate

It's important we know if anyone in your household will need help to evacuate in an emergency.

Please let us know by completing the Ability to Self-Evacuate Form below and return to:

Leasehold.Enquiries@Sw9.org.uk or you can hand deliver or post to the SW9 office, 6 Stockwell Park Walk, London SW9 0FG.

If you think this is relevant to your neighbours, please prompt or assist them to complete this form.

You may need help evacuating if you or your household have:

- Mobility issues
- Visual/Hearing impairment
- Large family unit
- Elderly relatives
- Young children.

We will collect this information so that we can ensure you and/or the members of your household can be evacuated safely in case of an emergency. This information will also be shared with the London Fire Brigade and the fire wardens. We will keep this information for the duration of your tenancy/lease. As well as being kept by Network Homes, this information will be stored in a 'red box' on site, which is only accessible by the London Fire Brigade

Items in communal areas

Please ensure **no items are stored in communal areas** and escape routes are clear. We have a zero-tolerance approach and personal items left in the communal areas will be removed. Flammable items such as BBQs and gas bottles should not be stored on the premises. These need to be removed immediately, as this is treated as a breach of your tenancy/lease.

Safety in your building

Dear Residents,

Fire strategy changed to Evacuation – waking watch to start Monday 10 August 2020. I am writing to advise you of an important change to the fire strategy at your address.

Following our inspection in June, we have reviewed the latest guidance and existing strategy with our fire safety expert, International Fire Consultants, who has advised that the strategy should be changed from Stay Put to a Simultaneous Evacuation Strategy.

This means if a fire breaks out you must evacuate the building immediately.

Background

Following an intrusive investigation in response to the government's consolidated Advice Note on Building Safety, our Building Surveyor, Philip Pank Partnership, carried out a preliminary investigation and issued a report identifying potential defects including poorly installed and missing cavity barriers within the external facade. We are currently discussing the findings of this report with our Fire Safety Expert to identify remedial works, which we hope to carry out as soon as possible. Once the issues are resolved, the fire strategy can be reinstated to stay put.

Your safety is our primary concern and we are working to address the issues promptly. We will update you when we have more information.

As of 12am on Monday 10 August, a 24-hour waking watch (fire wardens) will be in place. The role of the waking watch is to provide an early warning to all residents in the event of a fire. The fire wardens will raise the alarm by knocking on doors and sounding horns. In the event of a fire, everyone needs to leave the building.

Fire strategy

We have taken the following steps to support the total evacuation policy:

- Implementing a waking watch.
- Notifying the Fire Brigade of the change to a total evacuation strategy.
- Changing fire notices in the communal areas.

Contacting you going forwards

We're going to be sending you updates by text from now on, unless it is a critical safety update.

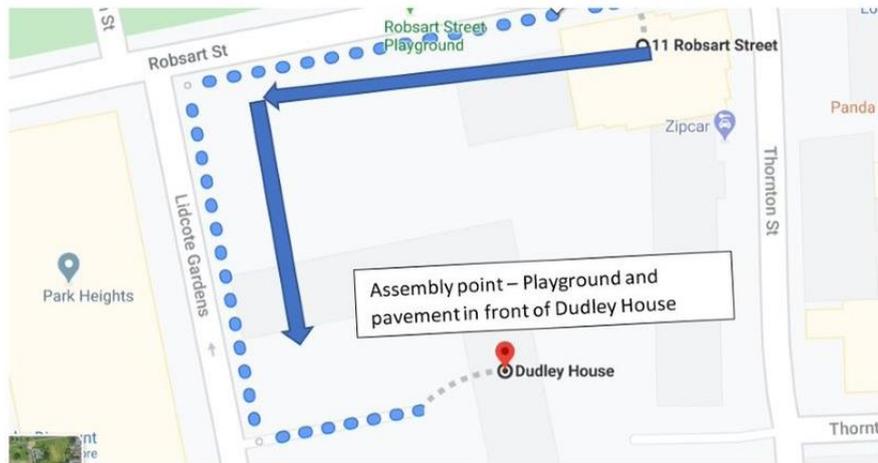

If you're a leaseholder and you have tenants living in your flat, please ensure you pass on any messages to your tenants.
